

UltraGRO -Advanced

美國知名的 HELIOS 生技由血小板濃縮液萃取血小板生長因子，製成 UltraGRO。血小板生長因子不僅能有效的用於人體傷口加速癒合，還可以在間葉幹細胞的培養上用來取代胎牛血清。因為無異種動物來源 (Xeno-free)，安全性比胎牛血清更高，且添加的用量較胎牛血清更少，只要 5% UltraGRO 就有 20% FBS 的效能！

細胞生長速度
更快!

細胞生長型態
更佳!

適用細胞一覽表

Amniotic membrane, AM	Leukemia	Endothelial Cell	Adipose, AD
Bone marrow, BM	Keratinocyte	Corneal Epithelial Cell	Dental pulp, DP
Umbilical Cord, UC	Fibroblast	Epithelial Cell (HEK293)	CIK/NK
Umbilical Cord Blood, UCB	ECFC	Cancer cell (HepG2)	T cell
Hematopoietic stem cell, HSC	Myoblast	Dental Pulp Stromal Cell	Hepatocyte
Amniotic fluid, AF
